

Casa Loma College a non-profit, nationally accredited college offering associate degree programs in the allied health field seeks **ONLINE LIBRARIAN**.

The **ONLINE LIBRARIAN** is a remote position that ensures the E-library system and services support and enhance student learning. This position will provide oversight to establish and maintain a proactive and responsive user-centered online environment; create innovative library programming; evaluate and assess all library services, programs, and make appropriate recommendations for changes through policies, etc.; conduct usability, accessibility, and design to improve the library's technology and web environment; develop coordinate, and implement workshops and instructional opportunities for all staff; serve as an instructor, and liaison to selected academic departments.

Requirements:

- Master's Degree in Library Science, or Library and Information Studies from an American Library Association accredited institution or a comparable information science related degree
- Three or more years of instructional experience in an academic library setting is preferred.
- Experience in learning management system development and /or online teaching is preferred.
- Experience in library instruction and conducting library research.
