

Casa Loma College Textbook Information (updated May 26, 2020)

TEXTBOOK INFORMATION: The Titles and ISBN of the required textbooks for each program are subject to change. It is highly recommended that you check with the Registrar's Office prior to purchasing any textbook to ensure the information is correct. We also advise that you do not purchase textbooks prior to one month before start date of course. Because of the many resources in which students may either purchase or rent textbooks, it becomes unrealistic to list retail prices. Casa Loma College can only ensure textbook pricing for those students opting to purchase their textbooks as part of their enrollment.
